DETAILED ACTION

Claim Numbering

1. Please note: The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Misnumbered claims 11-13 (newly added, filed on **September 21, 2009**) have been renumbered as 12-14. Original claim 11 was cancelled by Applicant on June 3, 2009.

Allowable Subject Matter

2. Claims 1-10 and 12-14 are allowed.
3. The following is an examiner's statement of reasons for allowance:

As argued on page 15th of Remarks (filed on **September 21, 2009**), Hirano, alone or in combination with Schaper and Ogawa, fails to teach or suggest "**a control device configured to display an image of a selection button corresponding to the control switch on the display screen being in the second position, and to offer functionality of the control switch on the display screen in the second position based on the user's touching the selection button, the operation of the control**

Art Unit: 2629

switch being unavailable based on the display screen being in the second position” in combination with other limitations of claim 1.

Similarly, the cited references have failed to teach “**displaying an image of a selection button corresponding to the control switch on the display screen being in the second position, and offering functionality of the control switch on the display screen in the second position based on the user's touching the selection button, the operation of the control switch being unavailable based on the display screen being in the second position**” in combination with other limitations of claims 9 and 10.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
